

Roots and Exponents Quiz #1 Analysis Math 9

Please complete and staple to your quiz

Q #	Essential Learning Goals	Colour
1.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
2.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
3a.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
3b.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
3c.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
3d.	<ul style="list-style-type: none"> • A1: I understand the different categories for real numbers and how they are related 	
4.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
5a.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
5b.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
5c.	<ul style="list-style-type: none"> • A3: I can apply mathematical operations in the correct order to simplify or evaluate expressions 	
5d.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
5e.	<ul style="list-style-type: none"> • A3: I can apply mathematical operations in the correct order to simplify or evaluate expressions 	
6.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
7.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	
8.	<ul style="list-style-type: none"> • A2: I understand the relationship between powers and roots using algebra as well as geometry, and I can evaluate both 	

Self-Evaluation – Please complete after reviewing your quiz in class.

To prepare for this quiz, I...	Strongly Agree	Agree	Disagree	Strongly Disagree
Reviewed the vocabulary/terminology				
Summarized the notes from class				
Completed all assigned homework				
Checked my answers for the homework and corrected any errors				
Asked for help on anything I was having trouble with				

Complete the following statements:

The things I did well on this quiz were:

The things I had difficulty with on this quiz were:

Moving forward, I will work on:
